

On the twelfth Day of Christmas, my true love gave to meeeeeee...

Twelve bins recycling
Eleven showers timing
Ten seasonal veges
Nine bikes a-riding
Eight wind turbines
Seven curtains drawing
Six flouro lightbulbs
Five carbon sinks!
Four hybrid engines
Three solar panels
Two shower buckets
In the spirit of One Degree.

- **Blair Speedy**

I'm dreaming of a green Christmas,
Just like we want them all to be,
With no carbons drifting,
Our lifestyles shifting,
And all on board with one degree.

I'm dreaming of a green Christmas,
With clear blue skies for all to see,
With low emission trading,
Black memories fading,
A future bright as it can be.

Yes, I'm dreaming of a green Christmas,
Our children's faces filled with glee,
Now their world is glistening,
And folks are listening,
To those who made that urgent plea.

I'm dreaming of a green Christmas,
Our planet breathing light and free,
So with plans and vision,
To fulfil our mission,
It's clear - it's up to you and me

- **Alan Armsden**

O bustling city, Sydney
The year is closing fast
Don't make this festive Season
As wasteful as the last
As we enjoy our Christmas
With seafood, sun and sea
Be mindful of our planet
In the spirit of One Degree

Buy lots of eco-presents
Burn candles 'stead of lights
Recycle all your Christmas wrap
We can get this world right
So let's all work together
To offset our Christmas spree
With a carbon-neutral holiday
In the Spirit of One Degree

Let's spare a thought for Santa
As round the world he spins
With no fossil fuels to off-set
We could all be more like him
He's not quite carbon-neutral
In his Reindeer-powered cruiser
But in Australia their methane
Is exempt under agriculture

O wondrous city, Sydney
You are special to us all
We can have a wonderful summer
While we heed the reduction call
We'll reduce our carbon footprint
And aim for pollution-free
We can make a gift to climate change
In the spirit of One Degree

- **Carol Dawson**

Away in Copen-ha-gen, no deal for our Kev,
the little Tony Abbott threw down the gaunt-let.
Ba-stars in the Senate voted down ETS,
What'll happen to Malcolm is anyone's guess.

A double dissolution, may still give Kev hope,
and if he looks like losing, he can lobby the Pope.
We love thee, global warming, it may yet make Kev king,
But Plan B is a diplo, matic post in Bei-jing.

- Steve Stickney

Rudolf the red nosed reindeer, Had a 100 Watt nose,
and if you ever saw it, you would even say "oh no"!
All of the other reindeer didn't laugh but called him names,
they never let poor Rudolf join in any reindeer games.
Then one foggy Christmas eve, Santa came to say,
"Rudolf with you nose so bright, try an energy efficient light.
Then how the reindeers loved him, and they shouted out with glee "one degree"
Rudolf the red nosed reindeer, you're greening up our company.

- Andrew Backhouse
